

## LOCUM in Palliative Care Medicine

Toronto, Ontario

### **Description:**

Toronto Western Hospital at the University Health Network is seeking a palliative care physician for a 2-month locum position in the Division of Palliative Care, Department of Supportive Care.

The Palliative Care Program invites applicants to apply for a 1.0 FTE locum Palliative Medicine physician position. The locum will begin June 28<sup>th</sup> or shortly thereafter and end September 6<sup>th</sup> 2021. The incumbent will work within an interdisciplinary team. Their clinical duties will include inpatient consultations and follow-up care, as well as MRP admission and follow-up care for patients at our affiliated 10-bed residential hospice, Kensington Hospice. The physician will participate in a team on-call schedule.

The successful candidate will be eligible for APP funding for 1.0 FTE as of June 28<sup>th</sup>. Should the candidate be available and wish to begin before this date, remuneration will be fee-for-service until June 28<sup>th</sup>.

Candidates must be eligible for licensure to practice medicine in Ontario. 1 year Palliative Care residency or fellowship training is preferred. If you would like additional information or would like to apply for this locum position please send questions or your CV to [caitlin.doherty@uhn.ca](mailto:caitlin.doherty@uhn.ca), Manager for the Department of Supportive Care.
